Plant Cell, Tissue and Organ Culture (2005) 80: 365–368

CONTENTS Volume 80 2005

Volume 80 No. 1 January 2005

Review of Plant Biotechnology and Applied Genetics

Genetic engineering in floriculture
Y. Tanaka, Y. Katsumoto, F. Brugliera, J. Mason **1–24**

Regular articles

Callus induction and plant regeneration in the metallophyte *Silene vulgaris* (Caryophyllaceae)
E.M. Jack, S. Anatasova, J.A.C. Verkleij **25–31**

Development of a shoot regeneration protocol for genetic transformation in *Pelargonium zonale* and *Pelargonium peltatum* hybrids
T. Winkelmann, K. Kaviani, M. Serek **33–42**

***In vitro* regeneration of the medicinal woody plant *Phellodendron amurense* Rupr. through excised leaves**
M.A.K. Azad, S. Yokota, T. Ohkubo, Y. Andoh, S. Yahara, N. Yoshizawa **43–50**

Agrobacterium tumefaciens*-mediated transformation of a medicinal plant *Taraxacum platycarpum
T.W. Bae, H.R. Park, Y.S. Kwak, H.Y. Lee, S.B. Ryu **51–57**

Selection *in vitro* and accumulation of phytochelatins in cadmium tolerant cell line of cucumber (*Cucumis sativus)*
J. Gzyl, E.A. Gwóźdź **59–67**

***In vitro* induction of polyploidy in annatto (*Bixa orellana*)**
J.F.R. Portela de Carvalho, C. Roberto de Carvalho, W. Campos Otoni **69–75**

Optimization of biolistic bombardment parameters for *Dendrobium* Sonia 17 calluses using GFP and GUS as the reporter system
C.S. Tee, M. Maziah **77–89**

Somatic embryogenesis in loblolly pine (*Pinus taeda*) and Douglas fir (*Pseudotsuga menziesii*): improving culture initiation and growth with MES pH buffer, biotin, and folic acid
G.S. Pullman, S. Johnson, S. Van Tassel, Y. Zhang **91–103**

Research notes

Comparison of gene expression under *in vitro* and *ex vitro* conditions during rooting of grape cuttings through mRNA differential display
P. Thomas, J.W. Schiefelbein **105–109**

Estimation of light intensity distribution in a culture vessel
Y. Ibaraki, Y. Nozaki **111–113**

In vitro* culture of the resurrection plant *Haberlea rhodopensis
D. Djilianov, G. Genova, D. Parvanova, N. Zapryanova, T. Konstantinova, A. Atanassov **115–118**

Volume 80 No. 2 February 2005

Regular articles

Micropropagation of *Hagenia abyssinica*: a multipurpose tree
T. Feyissa, M. Welander, L. Negash 119–127

Histology of embryogenic responses in soybean anther culture
L.R. Rodrigues, J.M.S. Oliveira, J.E.A. Mariath, M.H. Bodanese-Zanettini 129–137

Calluses initiated from thin mature embryo fragments are suitable targets for wheat transformation as assessed by long-term GUS expression studies
F. Delporte, S. Li, J.-M. Jacquemin 139–149

Rosmarinic acid production by *Coleus forskohlii* hairy root cultures
W. Li, K. Koike, Y. Asada, T. Yoshikawa, T. Nikaido 151–155

Plant regeneration through somatic embryogenesis from callus cultures of *Dioscorea zingiberensis*
Y. Shu, Y. Ying-Cai, L. Hong-Hui 157–161

Aluminum borate whisker-mediated production of transgenic tobacco plants
K. Mizuno, W. Takahashi, T. Beppu, T. Shimada, O. Tanaka 163–169

Effect of exogenous ABA on embryo maturation and quantification of endogenous levels of ABA and IAA in *Quercus suber* somatic embryos
G. García-Martín, J.A. Manzanera, M.E. González-Benito 171–177

Micrografting of ASBVd-infected Avocado (*Persea americana*) plants
I.E. Suarez, R.A. Schnell, D.N. Kuhn, R.E. Litz 179–185

Shoot multiplication in *Rauvolfia tetraphylla* L. using thidiazuron
M. Faisal, N. Ahmad, M. Anis 187–190

Sucrose in storage media and cultivar affects post-storage regrowth of *in vitro* Hosta propagules
V. Gollagunta, J.W. Adelberg, J. Rieck, N. Rajapakse 191–199

Induction of streptomycin-resistant plantlets in *Solanum surattense* through *in vitro* mutagenesis
N.R. Swamy, T. Ugandhar, M. Praveen, M. Rambabu, M. Upender 201–207

Callus induction and *de novo* regeneration from callus in Guar (*Cyamopsis tetragonoloba*)
D. Prem, S. Singh, P.P. Gupta, J. Singh, S.P.S. Kadyan 209–214

Research notes

Plant regeneration of three *Opuntia* genotypes used as human food
P.A. García-Saucedo, M. Valdez-Morales, M.E. Valverde, A. Cruz-Hernández, O. Paredes-López 215–219

A protocol for *in vitro* germination and sustainable growth of two tropical mistletoes
S.L.P. Ang, J.W.H. Yong 221–228

Development of high frequency multiple shoot formation in Persian clover (*Trifolium resupinatum* L.)
S. Uranbey, C.S. Sevimay, S. Özcan 229–232

Regeneration from leaf-base explants of *Lolium perenne* L. and *Lolium multiflorum* L.
C.A. Newell, J.C. Gray 233–237

Volume 80 No. 3 March 2005

Regular articles

Efficient *in vitro* bulblet regeneration from immature embryos of endangered *Sternbergia fischeriana*
S. Mirici, İ. Parmaksiz, S. Özcan, C. Sancak, S. Uranbey, E.O. Sarıhan, A. Gümüşçü, B. Gürbüz, N. Arslan **239–246**

Manipulation of MS and B5 components for enhancement of growth and solasodine production in hairy root cultures of *Solanum khasianum* Clarke
A. Jacob, N. Malpathak **247–257**

***In vitro* screening of sugarcane to evaluate smut susceptibility**
N. Singh, B.M. Somai, D. Pillay **259–266**

Somatic embryogenesis and plant regeneration in leaf and petiole explant cultures and cell suspension cultures of *Pinellia tripartita*
S.W. Kim, D.S. In, K.H. Tae, J.R. Liu **267–270**

The effect of aminoglycoside antibiotics on the adventitious regeneration from apricot leaves and selection of *npt*II-transformed leaf tissues
C. Petri, N. Alburquerque, L. Burgos **271–276**

Expression of the glutathione *S*-transferase gene (NT107) in transgenic *Dianthus superbus*
J.D. Lim, S.J. Hahn, C.Y. Yu, I.M. Chung **277–286**

Study of the involvement of osmotic adjustment and H^+-ATPase activity in the resistance of *Catharanthus roseus* suspension cells to salt stress
S. Elkahoui, M. Carvajal, R. Ghrir, F. Limam **287–294**

Enhancement of maize transformation efficiency by the use of maize matrix attachment regions
F. Torney, A. Partier, P. Barret, M. Beckert **295–303**

Production of interspecific somatic hybrids between tuber mustard (*Brassica juncea*) and red cabbage (*Brassica oleracea*)
L.-P. Chen, M.-F. Zhang, C.-S. Li, Y. Hirata **305–311**

***Narcissus* bulblet formation *in vitro*: effects of carbohydrate type and osmolarity of the culture medium**
I. Staikidou, S. Watson, B.M.R. Harvey, C. Selby **313–320**

Expression of recombinant endostatin in *Agrobacterium*-inoculated leaf-disks of *Nicotiana tabacum* var. *xanthi*
S.H. Hong, K.I. Kim, H.Y. Chung, Y.J. Kim, G. Sunter, D.M. Bisaro, I.S. Chung **321–327**

Mitochondrial mutant MSC cucumber shows impaired somatic embryogenesis
A. Ziółkowska, G. Bartoszewski, W. Burza, M. Kuraś, W. Pląder, S. Malepszy **329–338**

Research notes

Effects of chromosome reconstruction of barley genome on tissue culture response using two different regeneration systems
N. Abumhadi, K. Kamenarova, K. Gecheff, N. Christov, A. Atanassov **339–342**

In vitro* plant regeneration of *Alnus acuminata* H.B.K. ssp. *acuminata* and its root nodulation by *Frankia
R.J. Enrico, S.S. Ramírez, L.A. Mroginski, L.G. Wall **343–346**

Rapid micropropagation of *Curcuma longa* using bud explants pre-cultured in thidiazuron-supplemented liquid medium
S. Prathanturarug, N. Soonthornchareonnon, W. Chuakul, Y. Phaidee, P. Saralamp **347–351**

Direct shoot organogenesis from needles of three genotypes of *Sequoia sempervirens*
I.-W. Sul, S.S. Korban **353–358**

Instructions for authors **359–362**

Author Index **363–364**

Volume of contents **365–368**
